

GNY PORTABLE PRESSURE GAUGE TESTER MODEL 2491A

GNY'S Portable gauge tester lets you make accurate tests on all type of pressure gauges including differential pressure and duplex pressure gauge, **without removing the gauge from the operating equipment, when equipped with test socket.** Test gauges are accurate to 0.5% to meet minimum requirements of most fluid handling industries. The unit is particularly well suited for use in refineries, bulk terminals, petrochemical processing and for utilities. Unit is completely self contained and includes a 6 ft. twinweld hose and quick disconnect fittings.

Maintain performance and save time by testing pressure gauges in the field.

SPECIFICATIONS

CONSTRUCTION : Steel frame with steel tank and fittings.

AIR RESERVOIR GAUGE: 0-150 PSI, 2 1/2" dial.

TEST GAUGES: 0-160 PSI, 4 1/2" dial.

AIR RESERVOIR: 125 PSI, 924 cu. inch.

HOSE: 1/4" I.D., 6 Ft. twinweld with quick disconnect fittings.

EST. WEIGHT. 55 lbs.

Schematic Diagram shows operation of test unit.

Unit is equipped with air regulator, shut-off, bleed and relief valves.

Painted and shipped completely assembled.
